

Over 500
people
die
needlessly in
Pennsylvania
every
year due to
impaired
driving.

The PA DUI Association has been working to stop impaired driving for the past twenty-three years.

The Association has used many innovative approaches in its fight against impaired driving and the tragedies it causes.

The PA DUI Association, in conjunction with MADD Pennsylvania, is now undertaking one of the most meaningful projects it has ever worked on – the ***DUI Victims Memorial Garden***.

Dedicated to Highway Safety

Not to be Forgotten

The garden is located at our 2413 North Front Street property in Harrisburg overlooking the Susquehanna River. The garden incorporates bricks, pavers, benches, trees, shrubs and an abundance of flowering plants to create a beautiful and serene setting.

Our thanks to H. Edward Black & Associates, P.C. for generously donating the plans and landscape design and to Black's Landscape for executing the design so beautifully.

To remember and honor those killed in impaired driving crashes, the bricks within the courtyard are engraved with the names of DUI victims. Surrounding the courtyard are bricks/pavers engraved with a company or agency name. These represent members of the community who are committed to reducing impaired driving and keeping our citizens safe.

Victim bricks are engraved free of charge, simply complete the form to the right and send to the DUI Association. Sponsor bricks can be purchased for only \$100. They can be engraved with the purchaser's name (individual or company) .

Proceeds from the DUI Victims Memorial Garden will be used for DUI enforcement and education activities in the Commonwealth.
